This action is in response to the RCE and amendment filed 3/30/05.

***Reasons for Allowance***

1. Claims 26-31, 33-39, and 41-42 are allowed.
2. The following is an examiner's statement of reasons for allowance:

Claim 26 is allowed for reasons of record set forth by the applicant in the remarks filed 3/30/05. In particular, claim 26 limits the vapor deposition material to a pellet form covered by a fluoride layer of a metal/oxide/fluoride formula. This limitation, in combination with the other limitations of claim 26 is not taught or suggested by the prior art of record. Konishi (US005891531) teaches a vapor deposition material (film) covered with the metal/oxide/fluoride layer, the film formed by introducing gasses into the reactor. As amended, the claim clearly reads on the material to be deposited, not the resultant film. Tan (US006277254) teaches adding metal oxides or fluorides to material to make sintered pellets. The advantage of the additives is to lower the sintering temperature and the pellets are used as vapor deposition material. However, Tan teaches introducing the additive into the mix prior to forming the pellets, and not covering the pellets with the material.

Claims 27-31, 33-39, and 41-42 are allowed as being properly dependent upon allowed claim 26.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
